**TRESU iCut  
30000 cutting  
direct on  
sleeves**

# TRESU iCut 30000

Digital Plate Cutting - patented by TRESU

Internal store for raw mounted or ready for print sleeves

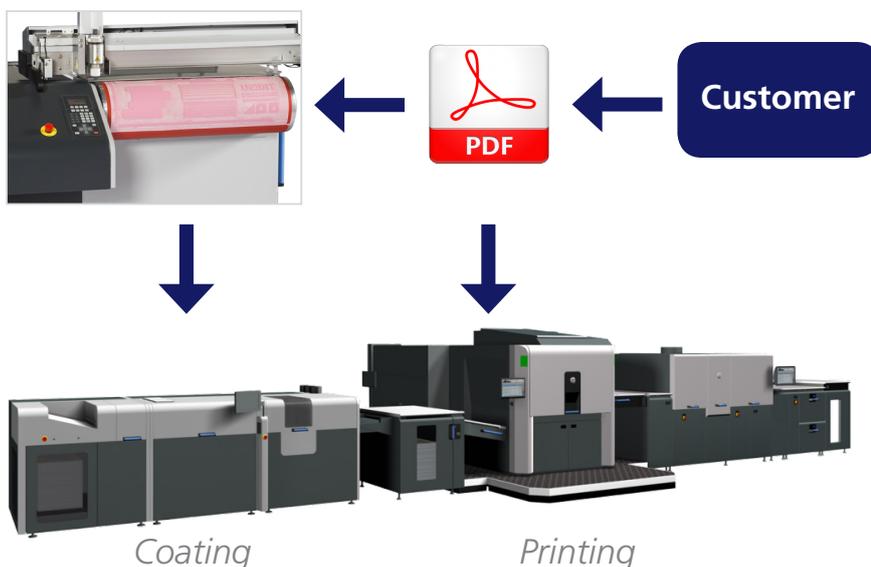

Tape roller integrated with cutting bar. Press roller for tape and plate material.

Easy mounting of tape and plate material.

1. On demand digital plate cutting for iCoat. Direct from image file to plate cutting.
2. Plate cutting 1:1. Register 100% accuracy in X-Y and twist.
3. Cutting real design on sleeve. No need for prepress and shrinking compensation
4. Cutting partial plate. Saved plate material still in register.
5. Time saving. Prepare sleeves with raw plates.
6. Below 10 min. cutting time.
